TIE BREAKING PROCEDURES

- All calculations regarding seeding and/or tie breaking will be completed by the Tournament Director (or designate).

- Seeding for the Playoffs will be determined by calculating the number of sets won/lost during Round Robin play.

- If 2 teams are tied, the head-to-head match between the 2 will be used to determine the higher seed. If sets are tied, then points for minus against in this match will be used. If still tied, points for minus against in all matches of the pool involving the 2 teams will be used. If still tied, a coin flip will determine the higher seed.

- If 3 or more teams are tied, the team having the best ratio of sets for/against amongst the tied teams will be ranked higher. If still tied, then points for, minus points against in matches between the tied teams will be used. If still tied, then points for, minus points against in all matches of the pool involving the tied teams will be used. If ties still exist, then a random draw will take place, conducted by the tournament director (or designate), which will determine the higher seed.
